## **Travel tips**

---

This is an adventure expeditions to one of the most remote regions in the country. The tourism infrastructure is almost nonexistent.

The expeditionary must be willing to walk under the sun, on the rocky and sandy terrain of the Orinoco savanna.

In camp sites there are no toilets nor showers, a portable latrine is installed and bath can be taken in the rivers, obviously without the use of soap.

It is required a walk of about 4 hours round trip in the savannah, with no major climbs and descents and without shadow to get to The Tuparro National Park. Each expeditionary should carry their own backpack with clothes and personal items for three days (the fewer things you carry the less weight!) What is not needed for the

first three days can be left in the hotel in Inirida the first day.

- As far as possible take the least amount of wrappers, cans or glasses and please, we return home all the inorganic wastes that we carry in our backpack «if you carry it in your backpack, you can return in your backpack»
- Be previously vaccinated against yellow fever and tetanus
- Don't bring items that are typically used by the military (i.e. camouflage clothing)
- Don't bring or take toxic, psychoactive or hallucinogenic and alcoholic substances
- Don't bring jewelry or valuables – Rolex watches and Cartier earrings; please leave them at home!
- During the trek, don't separate from the group and don't remain alone at any time.
- Bear in mind that we will be staying in a very remote place and our hosts will do everything for us as best as they can, given the local conditions and culture.
- We want that during our visit to these far, remote and often forgotten territories, all: guides, coordinators and tourists, we contribute to the economy of these regions and small towns, buying in the stores, bakeries and restaurants, their products and merchandise (such as sweets, chocolates, soft drinks, sweets, fruits, etc.) and acquiring local handicrafts. It is a small support through which we include these communities in the tourism value chain. If you like to consume very sophisticated foods or special diets (almonds, sugar-free chocolates, dried seeds or dehydrated fruits, for example), which you will not be able to get in the shops of the villages, we recommend you take them with you. Thank you for joining this initiative, this is called sustainable tourism!

### **Each participant should bring:**

- Water canteen, Thermo or Camelback, let's avoid plastic or PET bottles and if we buy or take them we return them to our house!
- Cotton clothes for warm weather, light colors, shirts with long-sleeves
- Bathing suit
- Towel
- Hiking boots or tennis shoes with good grip
- Additional tennis shoes or sandals
- Cap or hat

- Torch and extra batteries
- Sunglasses
- A small backpack for use while trekking
- Poncho (rain cape) – waterproof
- Personal hygiene items in small quantities
- First aid kit (personal medicines)
- Insect repellent
- Sun block
- Cash for tips, souvenirs and personal expenses
- Personal documents (identity papers, ID cards, health cards)
- Camera

**Note:** The maximum weight allowed on flights is 15 kilograms

**Our contribution:** When we visit places, where we know there are farmers or indigenous communities, we like to bring gifts to children, as a gratefulness for allowing us to explore their territory. We usually carry books, school supplies, pencils and colors! We invite you to participate!
