- Bear in mind that we will be staying in a very remote place and our hosts will do everything for us as best as they can, given the local conditions and culture.
- We want that during our visit to these remote, remote and often forgotten territories, all: guides, coordinators and tourists, we contribute to the economy of these regions and small towns, buying in the stores, bakeries and restaurants, their products and merchandise (such as sweets, chocolates, soft drinks, sweets, fruits, etc.) and acquiring local handicrafts. It is a small support through which we include these communities in the tourism value chain. If you like to consume very sophisticated foods or special diets (almonds, sugar-free chocolates, dried seeds or dehydrated fruits, for example), which you will not be able to get in the shops of the villages, we recommend you take them with you.
